

Please see the following information below regarding the natural palm stearin:

- The Natural Palm Stearin has not been tested on animals by the material manufacturer, or on their behalf by any outside agency.
- The Natural Palm Stearin is free from Genetically Modified material – either directly in the source material, or in the materials and processing used to produce the final product.
- The Natural Palm Stearin is free from BSE/TSE risk materials
- The Natural Palm Stearin has never been subjected to ionising radiation and does not contain any nano-particulates.
- The Natural Palm Stearin is sourced from a supplier who is a member of the Roundtable on Sustainable Palm Oil (RSPO), and who fully subscribes to the aims of that organisation.
- The Natural Palm Stearin has Supply Chain Certification as Mass Balance.
- The Natural Palm Stearin also conforms to many other regulatory and usage requirements.

Best Regards
